# STAR HONOR ROLL SCHOOLS

## Texas high poverty, high performing, achievement gap closing schools

In collaboration with Educational Results Partnership (ERP), the Institute for Productivity in Education presents the 2016 Honor Roll. Honor Roll recognizes public schools for demonstrating consistently higher levels of student academic achievement, improvement over time, and reduction in achievement gaps among ethnic minority and socioeconomically disadvantaged students. For high schools, Honor Roll recognition also includes college readiness in students. The Honor Roll also recognizes higher-performing, higher-poverty school districts and charter management organizations. Additionally, Honor Roll schools with higher performance in Science, Technology, Engineering and Math (STEM) are recognized with a special STEM designation. To identify Honor Roll schools, ERP uses the largest longitudinally-linked system of data in the country.
